There will be no in-person church during the month of January. Green Lake Church leaders met this week during the worship committee meeting to discuss the rise of infections caused by the omicron variant of COVID-19. While we are thankful that this wave has fewer deadly infections, hospital admissions are spiking, and the infection is serious for some individuals. During this highly infectious time, the decision has been made to have on-line church during January (the question of when to resume in-person meetings will be discussed at the church board meeting January 18). We wish all our members, families, and friends who have tested positive for COVID at this time an easy and speedy recovery.

Match Campaign for GLC Facilities ... The Foundation Board would like to express our deepest thanks to the many Church members and friends who contributed to our latest matching campaign to set up an endowment for the Green Lake Church Facilities. By December 31, 2021, we had received a total of \$46,435, and the original donors have promised to contribute their additional \$10,000 match, for a total of \$56,435. You can continue to give to this fund, even though we have met the match, as this is a cause worthy of your continued support. A healthy endowment will allow the fund to support the Church’s facilities to a significant degree in perpetuity. You are, and can be, a part of that. Thank you for your generosity!
